

COVID-19 VIRUS THREAT ROCA MEMBERS - VOLUNTEER

In response to the call for help two stalwart members of 13 Group ROCA volunteered to help build the Dragon Heart Hospital in Cardiff. The new field hospital was opened – remotely via a Video link - by HRH The Prince of Wales who was himself suffering as a victim of this vicious infection.

In true ROC spirit **Stan Robinson** and **Nuccio Cantali** gave up their spare time in response to the National Emergency and volunteered to help to build this much needed facility in record time.
